Who We Are

CEOs of Tomorrow believes in investing in youth early on in life with the gift of social entrepreneurship education. That's why we were born - to shape our community-minded youth and arm them with tools to make positive social change.

We offer engaging and hands-on social entrepreneurship programs for young innovators and problem solvers who are inspired to shape and influence their world. Youth learn how to take social issues they're passionate about and wrap business concepts around them. Within each program, they actually create and launch their revenue-generating business ideas that help their communities too!

Our programs are also designed to strengthen critical thinking, leadership skills, confidence, self-responsibility and problem-solving skills – all traits that can transfer to success both in school and beyond.

*We have dedicated our
entire business to
empowering young people
in bettering the world!*
